

The Expert Network

LIFE SCIENCE CONNECT

Life science experts from key parts of the industry craft original columns on the most pressing issues, exclusive to Life Science Connect audiences.

Vision

At its core, The Expert Network supports the mission of Life Science Connect – to facilitate connections and foster collaborations in pharmaceutical, biotech, and medical device industries. Experts are editorial contributors who expand topical coverage areas, imparting their expertise and hard-earned, first-hand best practices. It's an exclusive exchange of information and ideas with Life Science Connect audiences.

The Expert Network aspires to do much more than simply create and share content. Experts engage directly with Life Science Connect readers, sharing ideas and exchanging opinions. Digital interactions are converted to offline conversations, and The Expert Network serves as a critical link between readers and the industry at large.

Value

Scores of Experts shared insights with Life Science Connect readers in 2017, through publications like BioProcess Online and *Life Science Leader*. What follows is a collection of organizations, contributing panelists, and associated publications from 2017. Experts contributed expertise on pressing topics across life science product development and commercialization – from discovery, R&D, and clinical trials to outsourcing, regulatory, and market access.

Editorial by The Expert Network is featured across the integrated network of Life Science Connect digital publications, shared on social media, and distributed to readers through digital newsletters. Additionally, other websites and newsletters often syndicate or share content by The Expert Network – expanding the influence and delivery of value to readers in the industry.
